

Our Vision is a World Free of Lung Disease

The **American Lung Association** saves lives by improving lung health and preventing lung disease through education, advocacy and research.

27%

More than 3 million kids vape, which the Surgeon General has called an epidemic

1 in 4

Over 166 million Americans live in counties with unhealthy air

35 million

Chronic lung disease affects over 35 million Americans, including 6 million children

2.5 minutes

Every 2½ minutes someone is diagnosed with lung cancer

Our Groundbreaking Research Team

Since 2000, we have invested \$171 million in lung health research.

- **Lung Cancer Interception Dream Team**
Our research team is investigating ways to stop lung cancer before it even starts
- **Airways Clinical Research Centers**
Our network is the nation's largest not-for-profit collection of clinical trial centers dedicated to asthma and COPD treatment
- **Groundbreaking Longitudinal Study**
This \$24.8 million NIH grant is the first federally funded U.S. millennial study that will radically improve how we prevent and treat lung disease
